Getting Started with ImpleMapping

When creating implementation capacity in an organization new to active implementation, the first task is to map the current implementation landscape. The ImpleMap interview process assists implementation specialists in collecting information to inform active implementation planning and development in the organization.

Instructions

1. Read and Review

- **Look fors:**
 - Identify where you see examples of genuine curiosity
 - What questions does Dean Fixsen pose to gain a deeper understanding of
 - *What* is being done?
 - *How* it is being done?
 - *Who* is doing the work of implementation?

4. Apply it Now

- How can our team use the ImpleMap Vignettes to see and learn how an Implementation Specialist maps implementation efforts?
- How can our team engage in behavioral rehearsals to practice and strengthen our skills to map implementation efforts?
