

## Activity: Implementation Stages

### *Getting Started with Implementation Stages*

How do you start engaging in stage-based implementation activities? Review the Module 1 material on Implementation Stages then consider these questions. We encourage you to discuss these with your team and/or to write down your responses.

### Thinking about a current or upcoming initiative:

- How could you use a stage-based approach to the work?
  
  
  
  
  
  
  
  
  
  
- What data sources are important for each stage of implementation?
  
  
  
  
  
  
  
  
  
  
- What will facilitate the work in each stage?
  
  
  
  
  
  
  
  
  
  
- What barriers will need to be addressed during each stage?
